René Block (ed.), *Das Lied von der Erde / The Song of the Earth*, exhibition catalogue, Museum Fridericianum, Kassel, Germany, 2000. Associated with this international exhibition was a conference on the concept and nature of recurrent exhibitions, ‘Biennials in Dialogue’, appropriately held in Kassel – the host city of Documenta. The catalogue contains an interview with René Block, who has been involved with many such exhibitions (including a long involvement with the Biennale of Sydney) and essays on exhibitions in Havana, Istanbul, Johannesburg, Gwangju, Lyon, Pittsburgh, São Paulo and Sydney. The Museum’s website – [http://www.fridericianum-kassel.de/ausst/conf-e.html](http://www.fridericianum-kassel.de/ausst/conf-e.html) – contains information on this and a subsequent conference, ‘Biennials in Dialogue: exchange or global incest’, held in Frankfurt in 2002.
